React.js, Vue.js, JavaScript (ES6+), HTML5, CSS3, TypeScript, Java (Spring Boot), Node.js, Express.js, RESTful APIs, Python (Django, Flask), PHP (Laravel), PostgreSQL, MySQL, MongoDB, CMS Integration (WordPress, Strapi), Git, GitHub, Jenkins, Docker, Kubernetes, CI/CD, Selenium, TestNG, Allure, Responsive Web Design, UI/UX Principles, Agile/Scrum, Bash Scripting

Professional Experience

Front End + Python Teacher | Algorithmics

October 2024 – Present

- Taught Python, HTML, CSS, JavaScript, React.js, Arduino, and basic machine learning concepts to students.
- Guided students through hands-on coding exercises and collaborative projects.

Automation Engineer Intern | A1QA

July 2024 – October 2024

- Worked on Selenium-based automation framework with Allure and TestNG.
- Participated in Agile teams, implementing CI/CD with Jenkins and Docker.

Student Assistant Tutor – Scripting Languages | Kutaisi International University

Jan 2023 – July 2023, Jan 2024 – July 2024

- Tutored students in HTML, CSS, PHP, React.js, JavaScript, and Vue.js.

Projects

Resume Builder

Full Stack Developer | Jan 2025 – Mar 2025

- Built a dynamic resume builder using Vue.js and React for the frontend, PHP for PDF generation,

and PostgreSQL for the backend.

- Designed RESTful APIs and modular UI components for maintainability and scalability.

DebateBro – Hackathon Project | GDG Kutaisi

Lead Developer | Mar 2025

- Developed an AI-powered debate application with Python, React.js, Laravel, and Pygame.
- Implemented voice input (speech-to-text), JSON prompt handling, and support for smaller AI models.

Booking Website Platform

Full Stack Developer | Apr 2024 – Aug 2024

- Contributed to a multi-page booking website with dynamic search, booking, and payment features.
- Built using JavaScript, PHP, MySQL, and responsive UI components.

E-Commerce Website

Full Stack Contributor | Apr 2024 – Aug 2024

- Designed and implemented product listing, cart, and checkout modules using Laravel, React, and PostgreSQL.
- Focused on performance optimization and mobile responsiveness.

Tourism Website

Frontend Developer | Sep 2023 – Feb 2024

- Collaborated with designers to develop a visually engaging tourism platform using HTML5, CSS3, and Vue.js.
- Ensured cross-browser compatibility and improved page load times.

Shopify Integration Projects

Developer | Apr 2024 – Aug 2023

- Built and customized Shopify storefronts and integrated Shopify APIs for product management and payment workflows.
- Enhanced user experience through custom themes and third-party app integrations.

Education

Kutaisi International University – computer science

GPA: 3.1 | State Scholarship Holder | High School Gold Medalist

Certifications

REST API, Software Engineer, Problem Solving, SQL Advanced – HackerRank

Linux Training Course, Python Pro Bootcamp – Udemy
